TENSION & VIOLENCE INTENSIFY AS CHASM BETWEEN ISRAEL & PALESTINE WIDENS

The protest appears to be the largest mass demonstration since the 1980s. The uprising promises to be different from previous intifadas, partly because it comes in the wake of the Arab Spring, Occupy Wall Street and other mass protest movements around the globe. But the way in which the world engages with protest has also evolved, due to the advent of Twitter and cell phone video, which can focus attention on raw conflict in a way that bypasses the mainstream media. Today's march is being live tweeted at the hashtag #48kMarch.
